

SSI Premium 36" Traffic Barrels with Handle

SSI's 36" Traffic Barrels are constructed from high quality Polyethylene material, making them durable over the long term, and capable of withstanding impact.

The base is made from recycled rubber, and is designed to prevent the barrel from rolling if overturned.

Features and benefits:

- Designed for easy stacking and unstacking requiring minimal storage space
- Moulded top with handle for ease of handling
- UV Stabilized to reduce fading
- Two orange, and two white 4" HIP ASTM Type III Stripes
- Durable PE formulation to withstand impact

Product Specifications:

- Material: Orange Polyethylene with HIP stripes
- 38.25" high, 8 lbs
- Base weight 18 lbs
