

SSI Premium 42" Traffic Barrels

SSI's 42" Traffic Barrels are constructed from high quality durable Low or High Density Polyethylene material, making them both flexible and durable over the long term, and capable of withstanding impact.

The tire ring base is recycled and provides stability to keep the barrel in an upright position.

Features and benefits:

- Designed for easy stacking and unstacking requiring minimal storage space
- UV Stabilized to reduce fading
- Two orange, and two white 4" HIP ASTM Type III Stripes
- Meets NCHRP-350 code requirements

Product Specifications:

- Material: Orange LDPE with HIP stripes
- 42" high, 8 lbs
