

SSI Premium 28" Traffic Cones

SSI's Premium 28" Traffic Cones are constructed from high quality PVC materials, and have an interlocking base to prevent base separation.

The cones include 4" High Intensity Prismatic Type III striping

Features and benefits:

- Low center of gravity for maximum stability, and are designed for easy stacking and unstacking requiring minimal storage space
- UV Stabilized to reduce fading
- Reinforced bead at the top to resist tearing
- PVC formulation for improved cold weather performance

Product Specifications:

- Material: Virgin PVC orange florescent
- 28" high, 7.5 lbs
- Striping meets ASTM D4956 Type III standards
- UV Stabilization in both cone and striping
