

SSI TC-64A Light Barricade

The TC-64A Light Barricade is manufactured with three piece, all wood construction, giving the barricade both sufficient weight to stay in place, and lasting durability.

The TC-64A meets all regulatory requirements, and includes high intensity prismatic striping for maximum visibility even during the most difficult weather conditions.

Features and benefits:

- Rugged, 3 piece wood construction
- Sufficient weight to remain upright
- 36" high x 10' wide

Product Specifications:

- Type IV High Intensity Prismatic Striping
- 6" x 10' Rail, alternating black and orange striping
