

SSI Temporary Road Markers

SSI's Temporary Road Markers are made from high quality polyurethane and come in white or yellow.

The markers come complete with High Intensity Prismatic stripes on both sides.

Features and benefits:

- Polyurethane formulation results in improved flexibility and great bending memory
- Great visibility due to high intensity prismatic striping
- The peel and stick adhesive pads allow for ease of securing and removal from surfaces

Product Specifications:

- Material: Durable Polyurethane
- 4"x2" with 1" lip, .05 lbs
- UV Stabilized
